Peach State Tour

Formulaic Admission

Considers limited factors, such as:

- GPA
- Minimum course requirements
- Class rank
- Test scores

Standards for admission or scholarships are often posted on their website. More clear to applicants whether or not they will be admitted.

Panther Predictor

Students who wish to enter Georgia State University directly from high school will be admitted based upon the following four factors: SAT/ACT composite score, high school grade-point average, freshman index (FI), and number of high school courses completed in the core subject areas. The FI is based on a combination of SAT/ACT scores and high school grade-point average in college preparatory courses only.

This tool will help you determine the probability of freshman admission in advance of applying. The system will calculate your data and report an "unofficial admission decision" for first time freshmen only.

This tool uses the SAT two-digit test scoring structure (10-40) adopted in March 2016. If your test date was before March 2016, you will need to convert your scores to the new scoring structure. The [College Board concordance](#) provides conversion charts and other resources to see how your old scores compare to the new scores.

Note: International students should refer to the [international admissions page](#) for more information.

The SAT FI formula is: $SAT FI = (500 \times HSGPA) + SAT V + SAT M$

SAT SCORES

The ACT FI formula is: $ACT FI = (500 \times HSGPA) + (ACT composite \times 42) + 88$

ACT SCORES

Please note: admission requirements may vary from year to year, and the requirements mentioned here are the minimum values and do not guarantee an admission to Georgia State or a scholarship.

Peach State Tour

Holistic Admission

Considers factors, such as:

- Grades & courses
- Extracurricular activities
- Essays
- Interviews
- Test scores (if required)
- Recommendations

Typically used when there are more qualified applicants than admission spots. Admission is more gray.
