School climate is the overall quality and character of school life. BES has partnered with Haralson County High School with teaching all students success skills. Some of these skills address a positive attitude, initiative, respect, collaboration, accountability etc. A positive school climate goes a long way in preventing bullying in schools. BES teachers and administrators encourage a positive school climate by: teaching kindness and empathy, setting clear and enforceable rules, rewarding positive behavior (PBIS), and building relationships. Each classroom has a Bullying poster and the students are taught the consequences of bullying.

Important Information

Teachers will be sending home information on Parent Teacher Conference Sign Up. Please look for this in your child's Friday Folder.
