Kathy Campbell, Asst. Principal
Lena Mullany, Counselor

October 2022

October is a very busy month at BES. Please look at the calendar to keep up to date on all the events and special dates we have this month. Please remember to look in your child's Friday folder and if you have Facebook, look at updated events and important information on our Buchanan Elementary School Page.

Something New: If you see surveys come your way or hear your child talking about Blue Ribbon School: BES and the Haralson County School district is applying to become a Blue Ribbon School. The BRSE process is a school improvement process that provides the schools with an action plan blueprint that has identified the strengths and areas of need. The process also provides support for principals. Throughout the process, it provides an increase in the knowledge base of teachers, principals, and other school leaders on instruction and whether the students are progressing. Funds are used to conduct a needs assessment among schools to implement best practices to improve student achievement, improve classroom instruction, and improve learning loss.

It's a great day to be a Rebel!

Have a great month!
Mrs. Campbell

November 2nd & 3rd
Blue Ribbon School Visit

School climate is the overall quality and character of school life. BES has partnered with Haralson County High School with teaching all students success skills. Some of these skills address a positive attitude, initiative, respect, collaboration, accountability etc. A positive school climate goes a long way in preventing bullying in schools. BES teachers and administrators encourage a positive school climate by: teaching kindness and empathy, setting clear and enforceable rules, rewarding positive behavior (PBIS), and building relationships. Each classroom has a Bullying poster and the students are taught the consequences of bullying.

Important Information

Teachers will be sending home information on Parent Teacher Conference Sign Up. Please look for this in your child's Friday Folder.

VISION STATEMENT

Haralson County Schools will be recognized as a leader in improving student Achievement for ALL students.

MISSION STATEMENT

The mission of Buchanan Elementary, in partnership with parents and community, is to prepare and inspire each student to be literate, responsible, productive members of a diverse society who believes learning is a lifelong process.
